

## 1. Identification of the substance / preparation and of the company / undertaking

<b>Trade name</b>	NUDEC®PET
<b>Name of the product</b>	Polyethyleneterephthalate Sheets
<b>Product Use</b>	General application in the construction sector (enclosures, glassing, covers...), thermoforming
<b>Responsible for placing on the market</b>	
<i>Trade name of the firm</i>	See above
<b>Emergency number</b>	Emergency call: (+34) 93.713.27.00
<i>Official advisory body</i>	National Institute of Toxicology (Madrid, Spain): (+34) 91.562.04.20 Danish Poison Center (Giftlinjen): +45 8212 1212

## 2. Hazards Identification

This product has not been classified as a dangerous substance or preparation according to the Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.

<b>Label elements</b>	Not applicable
<b>Symptoms related to use</b>	
Inhalation	Fine dust may cause irritation of respiratory system and mucous. If heated to high temperatures during the heating process, the product may form vapors or fumes which may cause irritation of respiratory tract.
Skin contact	The prolonged contact with skin does not irritate. In normal process' conditions, the material can be heated at high temperature; in contact with hot material, may cause severe thermal burns.
Eye contact	Solid form or fine dust of the product may cause irritation to ocular mucous or ocular lesions.
Ingestion	Ingestion during handling is not likely. The ingestion of small quantities does not produce noxious effects. If swallowed, do not induce vomiting: seek medical advice immediately.
<b>Adverse environmental effects</b>	This product is not soluble in water. Because of its structure, the product should not be dangerous for aquatic life. Non biodegradable.
<b>Adverse physicochemical effects</b>	Combustible if exposed to flames. Flowing product can create electrical charge, resulting sparks may ignite fine dust or cause an explosion in some concentration ranges.

## 3. Composition/information on ingredients

<b>Chemical Name</b>	Polyethyleneterephthalate.
Composition	≥ 98 %.
CAS number	25038-59-9.
EINECS O ELINCS number	The product is a polymer, following the European Regulation; registration on the EINECS (European Inventory of Existing Commercial

Chemical Substances) inventory is not required.

**Substances presenting a health hazard**

The product is not composed by dangerous substances or dangerous preparations according to the Regulation (EC) No 1272/2008.

---

**4. First-aid measures**

---

**Route of exposure**

Inhalation

In case of inhalation of gases during the product combustion, move patient into fresh air. Seek medical attention.

Skin contact

In case of burns with molten material, immediately immerse in cold water. Wash immediately with soap and abundant water. In case of material adhering to skin, do not peel material from skin, obtain medical attention and treat the injury as a thermal burn. Seek medical attention.

Eye contact

In case of eye contact, wash immediately with abundant water. After the initial washing, remove the eventual contact lenses and go on washing affected eyes for at least 15 minutes under running water with eyelids held open. Seek medical attention.

Ingestion

Ingestion during handling is not likely. Remove material from mouth. If swallowed, do not induce vomiting: seek medical advice immediately.

---

**5. Fire-fighting measures**

---

**Fire-class regulation**

A: Solid materials fire, principally of organic nature, that burn with incandescence.

**Technical measures**

Stop the fire spreading. Call the fire brigade immediately. Evacuate non-essential personnel. Protective clothing, goggles and self-contained breathing equipment should be made available for firemen.

**Extinguishing media**

Suitable

Foam.  
 Water sprays (mist).  
 Chemical Powder ABC.  
 Carbon dioxide (CO<sub>2</sub>).  
 Sand.

Unsuitable

Unknown.

**Dangerous decomposition products**

Non-toxic products: Carbon dioxide (CO<sub>2</sub>), Carbon monoxide (CO) and volatile organic compounds.

**Special protective equipment**

In case of fire-fighting or risk of exposure to vapors or fumes, wear suitable breathing equipment.

## 6. Accidental release measures

<b>Personal precautions</b>	Risk of slipping on smooth surfaces.
<b>Environmental protection precautions</b>	This product is not soluble in water. Because of its structure, the product should not be dangerous for aquatic life. Non biodegradable. Refer to a specialist for waste disposal in a safe manner in accordance with local or national regulations.
<b>Cleaning methods</b>	Clean and collect the released product by hand or using vacuum equipments.

## 7. Handling and storage

<b>Handling</b>	The sheets may be heavy and difficult to handle. They must be carefully handled (do not drag) or using vacuum equipment. Avoid contact with hot or melted material. Avoid dust generation, otherwise, in some occasions; it may be run the risk of explosion. In order to decrease the potential risk of dust explosion, isolated and connect the electrical equipment to ground and avoid the dust accumulation. Use safety tools, which must not produce sparks, and anti-deflagrated electrical equipments.
<b>Storage</b>	The product should be stored in closed premises that guarantee normal environmental conditions. Store away heating and/or ignition sources.
<b>Specific uses</b>	No information available.

## 8. Exposure controls / personal protection

<b>Occupational exposure limit</b>	Particles (respirable dust particles) E (2008): VLA-ED: 3 mg/m <sup>3</sup> . Particles (inhalable dust particles) E (2008): VLA-ED: 10 mg/m <sup>3</sup> .
<b>Occupational exposure controls</b>	
Personal protection	In case of Risk of over exposure to dust, vapor or fumes (during product processing), wear suitable respirator with filter (recommended filter type: P1, EN-143)
Hands protection	The sharpened edges may cause cuts. Wear industrial gloves, EN-388.
Eyes protection	Wear goggles with lateral protections, EN-166.
Body protection	Overall (EN-340).
Hygienic measures	During the operation process is forbidden eating, drinking and smoking.
<b>Environmental exposure controls</b>	Non regulated.

## 9. Physical and chemical properties

### General information.

#### Aspect

Physical state	Solid.
Color	Transparent or colored.
Odour	Odourless.

### Important health, safety and environmental information

Ignition point (°C)	>350
Relative density	1,34
Solubility	Soluble in organic solvents.
Solubility in water	Insoluble.

### Other information

<b>Melting point</b> (°C)	>260
<b>Softening point</b> (°C)	69-80
<b>Auto-ignition temperature</b> (°C):	>450
<b>Thermal decomposition</b> (°C)	>320

## 10. Stability and reactivity

The product is stable under normal operating conditions (storage, handling and use). The thermal decomposition starts, approximately, at 300°C.

### Conditions to avoid

Avoid dust generation and/or accumulation.  
 Avoid proximity or contact with flames or sparks.  
 Avoid overheating the product.  
 Do not heat to temperatures exceeding the thermal decomposition.

### Materials to avoid

Avoid contact with strong oxidizing materials.

### Hazardous decomposition products

Non-toxic products: Carbon dioxide (CO<sub>2</sub>), Carbon monoxide (CO) and volatile organic compounds.

## 11. Toxicological information

This product has not been classified as a dangerous substance or preparation according to the Regulation (EC) No 1272/2008. Handling the product in the correct way, it does not have negative repercussions on health, according to the experiences and information which we have.

During the heating process may cause irritation of the skin, eyes and respiratory system.

---

## 12. Ecological information

---

<b>Ecotoxicity</b>	Because of its low solubility, the product should not be dangerous for aquatic life.
<b>Mobility</b>	Because of its physic-chemical properties, the product has low soil mobility. The product has a density up to 1 g/cm <sup>3</sup> , it sinks in water. Because of its low solubility, the product should not be dangerous for aquatic life.
<b>Persistence and degradability</b>	This product is slowly biodegradable.
<b>Bioaccumulative potential</b>	Potential bioaccumulation of the product in environment is slow.

---

## 13. Disposal considerations

---

Where possible, it is preferred recycling than destruction or incineration. The product is good for recycling. The condition to recycle is the collection and reutilization of exactly the same material. The elimination must be according to local or national regulations.

Industrial waste number EC: 070213: plastics.

---

## 14. Transport information

---

<b>Road (ADR) / Rail (RID)</b>	Not restricted for transport.
UN number	Not applicable.
<b>Marine (IMO)</b>	Not restricted for transport.
<b>Air Transport (ICAO/IATA)</b>	Not restricted for transport.

---

## 15. Regulatory information

---

<b>Labelling and Classification CE</b>	Not required.
Symbol(s) EC	Not classified according to Regulation (EC) No 1272/2008.
Wassergefährdungsklasse	NWG: non-hazardous to waters.

---

## 16. Other information

---

All issues of this Material Safety Data Sheet have been modified and/or further details conform to the Regulation EU 1907/2006/EEC (REACH).

---

The information contained is based on our knowledge of the product, at the date of publishing and it is given quite sincerely. Users are advised of possible additional hazards when the product is used in applications for which it was not intended. This sheet shall only be used and reproduced for prevention and security purposes. The references to legislative, regulatory and codes of practice documents cannot be considered as exhaustive. It is the responsibility of the person receiving the product to refer to the totality of the official documents concerning the use, the possession and the handling of the product. It is also the responsibility of the handlers of the product to pass on to any subsequent persons who will come into contact with the product. (usage, storage, cleaning of containers, other processes) The totality of the information contained within this safety data sheet and necessary for safety at work, the protection of health and the protection of environment.
